

# WEDDING PHOTOGRAPHY & VIDEOGRAPHY

[BRIGTSIGHTPHOTOGRAPHY.COM](http://BRIGTSIGHTPHOTOGRAPHY.COM)

A romantic photograph of a bride and groom kissing in a field at sunset. The groom is on the left, wearing a dark vest and tie, and the bride is on the right, wearing a white lace dress and holding a bouquet of flowers. The background is a soft-focus field of tall grasses under a warm, golden sky.

## GONE IN THE BLINK OF AN EYE, BUT CAPTURED FOREVER

MARRIAGE is uniquely beautiful and precious. Unless you're booking for someone else, there's a pretty good chance that this is all completely new to you.

Cam & Beth's primary goal is to always make you feel as comfortable and candid as possible. We feel that this not only provides the greatest experience on a wedding day, but also the most authentic results. In this brochure, we'll walk you through our approach.

# THE TEAM

## I'M CAM.

The creative process of capturing photos and videos is very important to me.

I want you to look back on your day in five years time and still be blown away, knowing you made the right decision.

## I'M BETH

Photography has always been a big part of my life, now I'm putting it to good use.

knowing I've given my couples something special to pass down over the generations is an indescribable feeling.

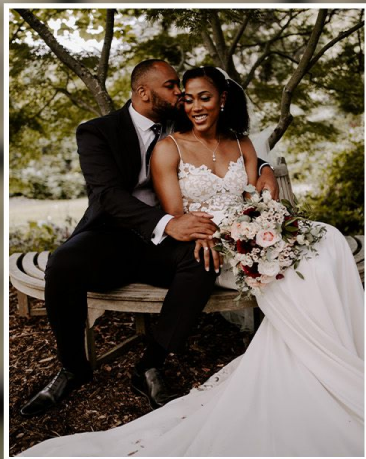

Bright Sight Photography was founded in 2016 by two very passionate people to fill in the gap of beautiful wedding photos and videos that tell a real story. We've always tried to avoid the fluff and put the day itself first, meaning you'll see more of the things you want to see such as the guests making memories that will last forever and the love between you both.

Shooting only with the highest quality gear, we strive to capture memories that you can treasure for the rest of your life, avoiding fads that might leave your day looking dull and outdated in a few years time. We aim to stand out when you need us, and disappear into the crowd when you don't, capturing the most authentic moments as they come.

# PHOTOGRAPHY

The perfect summary of an unforgettable day. 600-800 photos that capture the true spirit of what a wedding should be, a couple, family, and their friends celebrating the love between two people.

Laughs, tears, reactions and reveals, that's what we do best. Carefully selected and edited to perfection, every part of the process has been tailored over years of experience.

# VIDEOGRAPHY

## HIGHLIGHT CUT

This is what we're known for. Our highlight cut is a perfect cinematic retelling of your beautiful day. It's the ideal length of 10-13 minutes which is fantastic for multiple viewings and sharing with family and friends.

## LONG CUT

The full accounting of your day. A large portion of our captured footage goes here, including the full ceremony, speeches and first dance with all the good bits in-between. This will probably be your family's favourite cut.

## CAN'T DECIDE? HAVE BOTH.

We know that a lot of modern couples need both photography and videography at their wedding. Finding two separate companies that match in both style & price can be a difficult task. Work-flows can also often clash between two people who've never worked together.

Photo & Video team has become our most popular package simply due to the fact that it solves all of those issues. We've perfected our workflow to capture in sync while never missing a shot. We travel together, work together and edit together. (the discount also helps...)

# FREQUENTLY ASKED QUESTIONS

## "Where are you based and can we meet up?"

We're currently based in Bridgend, South Wales, however, we travel all over the UK for our weddings. Because of how far we travel and our insanely busy schedule, it's rare that we're able to meet in person before the day, however, we're more than happy to have as many video calls as you need, even before you book.

## "Do I have to book if we have a video call?"

Not at all, it's completely non-binding. We'll always encourage couples to keep looking around and make sure that we're perfect for you. We'll run through some questions with you on the call to find out more about you and if we're also a good fit for the day.

## "Can I book without a phone call or meeting?"

Absolutely, we fully appreciate that our couples live busy lives and we've always aimed to make the process as seamless as possible. Whenever you're ready to book in with us, just say the word.

## "Do you have backups should something go wrong? Is my wedding safe?"

Keeping our media safe is one of our top priorities. Our weddings are always captured to two memory cards at once to eliminate the chance of data loss. After the day, photos and videos are backed up in a minimum of two separate physical locations.

## "We find it really awkward being posed, will this be a problem?"

No problem at all. We aim to take it at your pace, never pushing you outside of your comfort zone. No two weddings are the same, adapting to the needs of each couple is vital for capturing the day at it's most authentic.

## "How far do you travel? Is there a fee?"

We'll travel anywhere in England & Wales at no extra cost. Not saying in one corner helps keep our passion fresh and interesting with each new wedding bringing a new and beautiful venue.

## "If I do decide to book, what's the procedure?"

We take a small deposit to secure the date with the remainder due at any time or one month before the wedding is set to take place. After that, you're on the schedule and are officially booked in.

## "How long will you stay for?"

Unless we've arranged something special, all of our packages covers from 10am to 8:30pm, making this perfect for covering bride/groom prep to first dance. We take a small break while everyone eats to back-up our cards, eat our dinner and take a breather.

## "Do we need to arrange food for you and your team?"

Food is always deeply appreciated as it saves us from leaving the venue to find a hot meal and rushing back in time for speeches. We completely understand that this isn't always possible or practical, however, and will not take it to heart.

## "If we book photo & video, can you still capture both preps?"

Yes! Provided the locations are within 30 minutes of each other, we've never had a problem capturing both preps, even with one photographer and one videographer. We'll usually attend groom prep first (25 minutes~) and then dash off to bride prep.

HERE'S TO ALL OF THE BEAUTIFUL  
DAYS WE HAVE YET TO CAPTURE.
